

## **Dan Zalusk**

Dan is a Certified Engineering Technologist graduate from Ryerson University. After graduation, he started at Bell in Outside Plant Engineering in Barrie Ontario. Transferred to London in 1978 where he worked in Outside Plant Planning, Network Integrated Planning, Network Finance and Network Power and Infrastructure Planning and Power New Technology Introduction.

He is a member of the Canadian Institute of Management as a Charter Manager, completing a 4 year program at the University of Western Ontario in 1986.

Dan retired from Bell in 2009 and subsequently joined TELUS in the Critical Power and Building Infrastructure dept for Eastern Canada (Manitoba east to Maritime Provinces), USA and Data Centers until 2015, completing 40 years in telecom. Dan is currently employed part time with a US company focused on introducing lithium batteries for telecom reserve power.

Dan enjoyed 25 years with Junior Achievement of London and District with 15 of those years on the Board of Directors.

He was also President of ATME (Association of Telephone Management Employees) for 2 periods totalling 15 years.

Dan recently received his accreditation as a Certified Manager (USA).
