

CANADIAN PENSIONERS DESERVE REAL PROTECTION

Canadian pensioners have worked hard all their lives and deserve to have their pensions protected. The Canadian Federation of Pensioners and the National Pensioners Federation are calling on all MPs to support changes that will safeguard defined benefit pensions.

CURRENT LAWS DO NOT PROTECT PENSIONERS

There are no real protections for defined benefit pensions when a company goes bankrupt.

- The risk to defined benefit pensions occurs when a company becomes insolvent and its pension is underfunded.
- When companies are in trouble but haven't yet become insolvent, pensioners are powerless to intervene and secure their pensions. All other creditors can negotiate terms to protect their interests.
- Insolvency law does not treat pensioners fairly. Unlike creditors, pensioners are not automatically able to negotiate their terms when assets are divided. They aren't even allocated a seat at the table, unless the court grants them one.
- According to the Financial Services Commission of Ontario (FSCO), 78% of defined benefit pension plans in Ontario are under-funded. In the event of an insolvency, those pensioners will not receive their full pension. **This puts an estimated 850,000 pensioners at risk.**

THE FEDERAL GOVERNMENT MUST ACT NOW TO PROTECT PENSIONERS

- 1.** Create a **pension insurance program** that insures 100% of the pension liability. This should be fully funded by the plan sponsors. While this would impact only federally regulated pensions, it would create a model for similar plans at the provincial level.
- 2.** Amend insolvency legislation to extend **super-priority** to the unfunded pension liability. While this would not guarantee pensioners would receive 100% of their pensions, it is an action the federal government should take to provide increased pension security to all pensioners of companies entering insolvency.
- 3.** Establish a **recurring refundable tax** credit equal to the annual pension loss experienced by a pensioner. If legislation is amended to ensure pensioners receive their full pension or if a pension insurance program is created, this credit will serve as a backstop to ensure these changes work to protect pensioners.

CANADA LAGS BEHIND THE US AND UK IN PENSION PROTECTION

The insolvency of Sears highlights the disparity between American and Canadian pension protections.

In Canada, Sears pensioners have lost their health and dental benefits, and, outside of Ontario, 20% of their pensions

In the U.S., 90,000 Sears pensioners will receive their full pensions through the Pension Benefit Guaranty Corporation.

**CANADIANS EXPECT
THEIR GOVERNMENT
TO PROTECT THEM.**

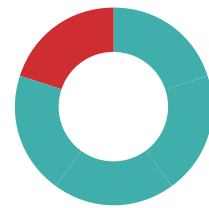

**THE FEDERAL
GOVERNMENT MUST
PROTECT PENSIONERS NOW.**

Case Study: A Sears Retiree

A **63-year-old** retiree with **47 years of service** at Sears was promised a **monthly pension of \$3,500** through the company's defined benefit pension plan.

When Sears became insolvent, its pension was **80% funded** on wind up. This left an **unfunded pension liability of 20%**.

**Depending on where they live,
here is what the pensioner would receive:**

U.S. \$3,500 - Fully protected by Pension Benefit Guaranty Corporation

U.K. \$3,150 - At least 90% protected by the Pension Protection Fund

ONTARIO \$3,100 - Only partially protected by the Ontario Pension Benefits Guarantee Fund

Rest of Canada \$2,800 - No protection!!

WHAT ARE DEFINED BENEFIT PENSIONS?

- Over 1.3 million Canadian retirees and their spouses rely on defined benefit pension plans.
- Defined benefit pension plans are a part of an employee's total compensation package and are legally considered deferred compensation.
- The annual pension amount is calculated using a formula that reflects an employee's salary, length of service and age.
- Pensioners have planned their retirement based on their defined pension income.
- Pension income is taxable in the hands of pensioners.
